

euroseal
advanced european quality sealing

EXAMPLES OF APPLICATION

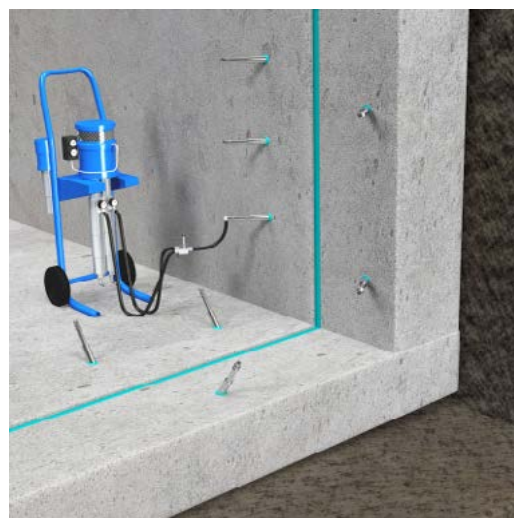

STRUCTURAL INJECTION
Sealing the old wall by injecting acrylic resin.

CURTAIN INJECTION
Curtain injection allows for secondary external insulation without having to dig it out.

HORIZONTAL BARRIER
Sealing the wall before capillary expansion by creating a horizontal diaphragm.

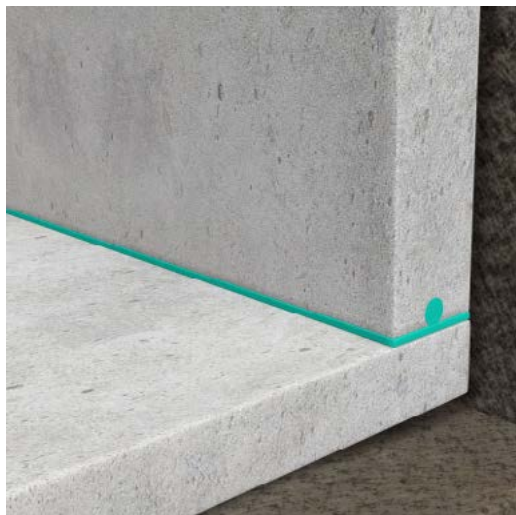

DILATATION SEALING SYSTEM
The acrylic polymer injection filler is especially designed for expansion joints.

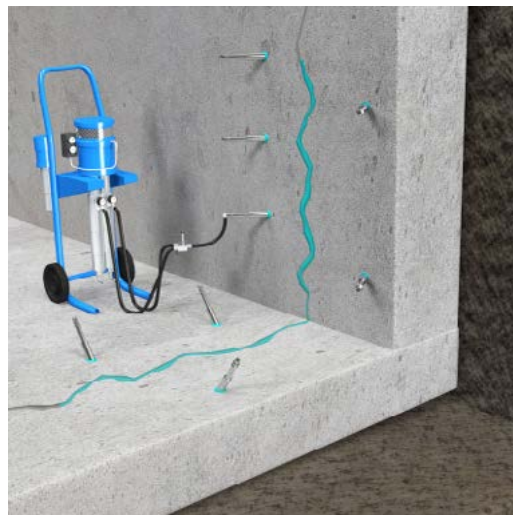

euroseal
advanced european quality sealing

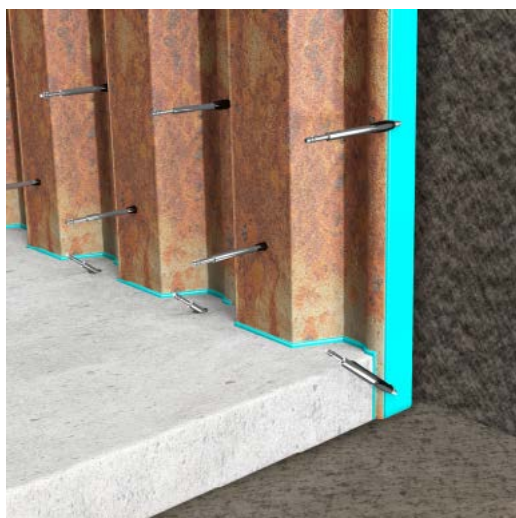

EXAMPLES OF APPLICATION

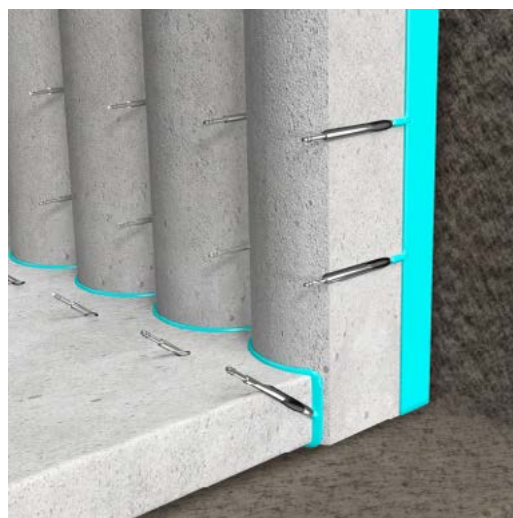

Concrete joint sealing with injection hoses and subsequent injection with injection resin

Flexible and structural crack injection into humid and dry cracks

Waterproofing of sheet piling wall against pressurized water

Sealing of pile head wall against pressurized water

euroseal
advanced european quality sealing

EXAMPLES OF USE ON CONSTRUCTION SITES
